Martin Camacho *Software Engineer*

✉ camachom@fastmail.com   📍 New York, NY   ⊙ github.com/camachom

in linkedin.com/in/camachomartin   🔗 https://me.vs.computer

Versatile software engineer with 8+ years of startup experience and a strong record of owning critical application systems end-to-end. Focused on backend and product-facing work across Ruby on Rails, React, Node, and SQL. Comfortable working with infrastructure when needed (e.g., Terraform and AWS), without positioning as a dedicated infra specialist.

💼 Professional Experience

Software Engineer, *BuildZoom (YC W13)* ⊡   04/2021 – 12/2025
- Owned and maintained the checkout system, ensuring high uptime,   New York
  scalability, and reliable integration with third-party services
- Reduced AWS RDS snapshot storage costs by ~20%
- Contributed across Rails backend, APIs, and infrastructure to support
  core business workflows
- Role concluded following company acquisition and associated post-
  acquisition reductions

Teacher Assistant, *CCSF* ⊡   08/2022 – 12/2022
- Assisted Professor Maximilian Luttrell with CS110B: Programming   San Francisco
  Fundamentals (C++)
- Supported students through code reviews, debugging sessions, and
  conceptual explanations

Project Lead (Student Engineering Team), *Major League Hacking* ⊡   09/2020 – 12/2020
- Led and mentored a team of three recent graduates delivering their   Remote
  first production application for a Department of Defense project

Software Engineer, *Peerspace* ⊡   08/2017 – 04/2020
- Improved Google PageSpeed scores by ~10% through performance   San Francisco
  optimizations
- Took ownership of SEO initiatives, including systems to auto-generate
  pages at scale and A/B testing

🎓 Education

Math Certification, *CCSF*   2018 – 2020
  Completed all undergraduate math courses offered with a 4.0 GPA

Web Development Bootcamp, *App Academy*   2016 – 2016

Bachelors of Science in Communication, *Florida International University*   2008 – 2013
